

This session is about fully leveraging connected equipment and providing most valuable insights. You will learn how IoT integration with any architecture and any system helps you to put your data to work.

Duration: 20 min

Achievements: Attendance Badge

Learner Profile

- Business User
- Solution Architect

Required Knowledge

- Not expected

Next Steps

- Cumulocity IoT Associate

Learning Objectives

- Integration is the Biggest Challenge
- IoT Integration with Emerging Technologies
- Democratize IoT
- Cumulocity IoT Data Integration
- Integration using Microservice
- Demo
- Key Takeaways

Activities

- Learning Videos & Demos
